### Project Titles

*Either:*

Using the newspapers you have been given, list as many Project topics as possible that link the headlines in the newspapers to your main interest or subject of study.

*Or:*

In a group, read the headlines about local, national and international affairs that you have been given.

Now select a minimum of **five** topics of the group's choosing to debate. Each topic must be related to the headlines you have been given.

- 1.
- 2.
- 3.
- 4.
- 5.

You can debate each topic in the class or between classes.

Have any of these debates helped to generate Project ideas and titles? If so, which ones?
